## PROFILE

Experienced Web Developer specializing in PHP Laravel, Angular, and WordPress with a strong focus on performance, security, and SEO. Skilled in frontend and backend development, building scalable web applications, and ensuring cross-browser compatibility. Passionate about delivering clean, maintainable code while following W3C standards and best practices. Always eager to learn new technologies and solve complex problems efficiently.

## WORK EXPERIENCE

2022 - 2023

### UY Lab IT Center

Web Designer & WordPress Theme Customization

- Designed and developed responsive websites using HTML, CSS, and JavaScript, ensuring seamless performance across all devices.
- Converted Figma/PSD designs into functional websites with a focus on pixel-perfect accuracy and adherence to UI/UX principles.
- Optimized websites for speed, SEO, and accessibility, ensuring compliance with W3C standards and cross-browser compatibility.
- Customized and implemented WordPress themes, focusing on creating intuitive, user-friendly interfaces.

### Softlab IT Center

2022 - 2024

Web Developer (Angular & Full-Stack)

- Developed dynamic and responsive web applications using AngularJS for an interactive user experience.
- Built and optimized single-page applications (SPAs) with Angular, ensuring smooth navigation and fast performance.
- Ensured cross-browser compatibility, W3C-compliant code, and optimized performance for better UX.
- Worked with MySQL databases, managing data flow and optimizing queries for fast and efficient processing.

### UY Lab IT Center

2025 - Present

PHP Laravel Developer

- Experienced in building dynamic, high-performance web applications using Laravel.
- Expert in API development, database optimization, and secure authentication systems.
- Ensures fast, scalable, and SEO-friendly websites with best coding practices.
- Delivers clean, maintainable, and client-focused solutions on time.
